Profile of Zwe Aung Naing

Career Objective

My career objective is to secure a position as a junior web developer where I can utilize my skills and knowledge to contribute to the growth of the organization. I am eager to gain practical experience in the field and build upon my existing skills in web development. I am committed to learning and growing as a professional, and I am looking for an opportunity to work alongside experienced developers who can mentor and guide me in my career. My goal is to become a proficient web developer and eventually advance to a senior role in the company.

Assistance

As an assistant in my sister's shop, I gained experience in document management and photo editing. I assisted customers with copying, printing, and scanning documents, ensuring their quality and accuracy. I also edited and retouched passport photos using Adobe Photoshop to meet the required standards. This role developed my communication and interpersonal skills, as I interacted with diverse clients with different needs. I also developed technical skills in software applications for document management and photo editing, which will benefit me in future roles.
